November Meeting

ASHRAE Guideline 36

Updates and Keys for Specifying

Mr. Michael Orcutt

Ken Gilbert is a Regional Technical Consultant for Automated Logic, supporting design engineers and consultants in the Atlanta area. Ken brings significant industry experience to ALC having served with The Trane Company and Honeywell International in a variety of sales, engineering, and consultative roles. Ken graduated from the Georgia Institute of Technology with a Bachelor of Science degree in Industrial Management. Ken is a LEED AP and holds a state of Georgia general contracting license. Ken and his family live in the Atlanta area.

Topic of Program: ASHRAE Guideline 36: Updates and Keys for Specifying

Program Description: This presentation will provide an update on what will be included in the upcoming ASHRAE Guideline 36-2021 "High-Performance Sequences of operation for HVAC Systems" that will be published later this year as a replacement to the 2018 version. In addition, this presentation will provide some guidance on how these sequences can be specified for implementation on projects.

Learning Objectives:

- What is the status of ASHRAE Guideline 36?
- What is included in ASHRAE Guideline 36-2021?
- How to specify high performance sequences of operation from ASHRAE Guideline 36
- The future of ASHRAE Guideline 36
